New in Service	⌄
System Requirements	⌄

1. Open the TAK ICU Application on your Android EUD
2. Locate the Gear Menu in the Top Right > Go to Broadcast Preference
3. Choose 'WOWZA' for Server Destination (Not Actually WOWZA, TAK Setting)
4. Go to Broadcast Alias – Give it a Name (No Spaces)
5. Set Your Resolution, Frame & Bit Rate
   a. Network Connection Dependent – Recommend 720P, 30FPS, and 2/3K Bit Rate
6. WOWZA Server IP – 15.200.222.123
7. Server Preferences > Server Port > 1935
8. Don't Worry About Username and Password with Sit(X)
9. Hit the Back Arrow Until Your Back at the Main Screen
10. Select 'Broadcast' and/or 'Record' – Red Dot Should Move to Blue & Test
